

**MECHANICAL CONTRACTORS**

Inspection is required when gas piping and all connections are complete. A pressure test/gauge is required with a note stating the test pressure used and time and date test was started for inspection, or an Affidavit Letter with the following information included is accepted by the Ray Township Building Department:

Note: If any portion of any gas line will be covered up or concealed, an inspection of the installation with a pressure test is required (concealed work must be visually inspected prior to concealing). Examples; Underground gas lines, gas lines installed in or through rough framing that will be concealed. Additional inspection fees may apply.
